TO THE TRADE

We allow a Discount of

50 per cent

This is one-half of the Prices Marked in this Catalogue.

After writing the discount and terms on stub in your private mark, tear off this sheet and you are prepared to sell your customer readily from catalogue if you are out of any of our goods.

CATALOGUE NO. 15
Fifteenth Year

Manufacturers and Jobbers of Picture Framers' Tools, Machinery Picture Hardware, Glass and Sundries

We are not a general merchandise house, but a picture establishment that studies the wants of the picture buyer ☙ Catalogue sent to dealers only ☙ We do not solicit retail trade

INFORMATION

By observing the following few remarks you will avoid considerable delay and misunderstanding.

Terms Our terms to responsible merchants are three per cent fifteen, or net sixty days from date of invoice. All bills when due are subject to sight draft without notice, with collection charges added.

We ship C. O. D. on receiving one-fourth of the order in advance, allowing three per cent discount if goods are taken up promptly on arrival.

No charge for boxing or cartage on orders exceeding ten dollars.

References New customers should give references (Chicago if possible) with order.

Substitution All orders when sent to us should name second choice in the event of our being out of certain goods. When this is not done, and having no other instructions to the contrary, we shall use our best judgment in substituting.

Responsibility for Damage Our responsibility ceases when goods are delivered in good condition to the transportation company and a clear receipt obtained therefor. We ship goods at owner's risk to secure the lowest possible rate.

Instructions When ordering please mention Catalogue No. 15, and state how goods are to be shipped.

ALL PRICES SUBJECT TO CHANGE WITHOUT NOTICE. ELECTROTYPES CAN BE FURNISHED OF ANY ILLUSTRATION

INDEX

American Beauty No. 2.
Copyright The A. F. Kern Co.

Frame No. A4306.

This combination consists of a series of four dashing colored pictures, two Red Girls and two Juveniles, painted by Bryson, which are undoubtedly the best this artist has ever painted in this line. The frame is a dainty black lacquered flat reeded design, which is entirely new. The gilt finished corner ornaments which were designed especially for this frame, are quite a feature in this piece of goods. These frames are 5 x 7½ inches outside measure and are fitted with glass, back, and assorted pictures mounted, black raw silk mounts and wire easel—packed in cardboard box. Subjects as below.

Explanation to List of Sizes of Carbon and Platinotype Photographs.

See Pages 50 to 62 for Prices Framed.

As it is impossible to make every subject we publish in all our sizes we find it necessary to make a list of them from which you can obtain information which will prevent you from ordering pictures not made. You are also liable to order photographs that will not go in an oval frame, by observing subject No. 244 as an example you will see that an X is in the oval column, meaning that this subject can be framed in an oval frame. You will also notice that this picture is made in every size, by an X being in every column.

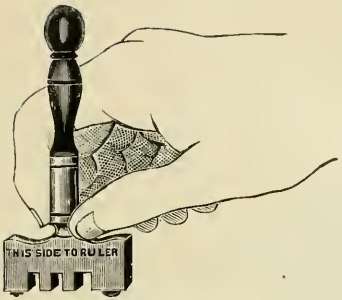
No. 2	3.00
No. 1	6.00

All ready for use. No preparing necessary.

Universal Diamond Glass Cutter.

Anyone can cut with it, however inexperienced in cutting they may be.



Cut about one-half size.

This is the only good diamond on the market. The name on each box tells the story.

Convenient to carry in the pocket. Has full-size key for breaking off. Suitable for use on ordinary glass.

When cutting glass, never cut twice in the same cut.

No. 1S. For cutting single-strength glass.....each, $ 9.00

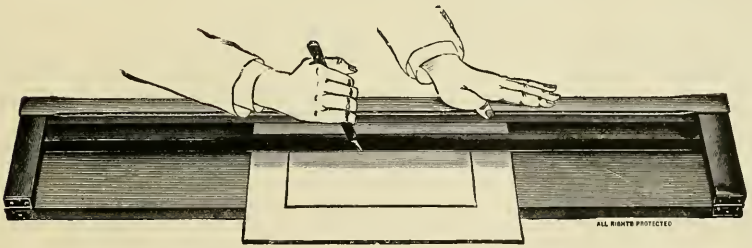
No. 1D. For cutting single and double-strength glass .....each, 12 00

Anyone can cut with this style, however inexperienced in glass cutting, as it merely requires to be set on the glass and drawn over it to make a perfect cut.

☞When ordering this style Diamond, mention if used for single or double glass.

Remember that every diamond is guaranteed.

Kern Mat Cutter.



The most practical and cheapest mat cutter ever invented.

Price .....each, $5.40

NOTICE—Always place a piece of waste board on the lower board, under the straight edge, to save and protect it from the knife when cutting.

Steel Roller Glass Cutter.

Made of metal with best tempered steel roller, with key for breaking off glass. Handle made of imitation rosewood. Never cut twice in same place.

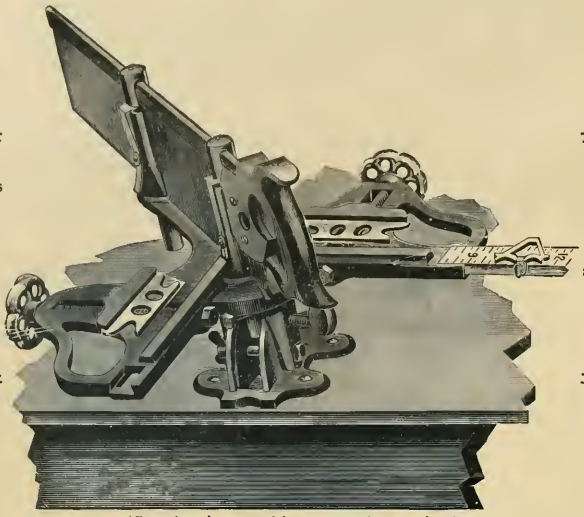
Price..... per dozen, $1.20

Price.....each, .14

Marsh Mitre Machine and Vise Combined.

No plane needed with this machine to make perfect joints. Can be placed on any table, bench or counter, or in any position. This machine is made entirely of iron and steel.

We recommend this as being the strongest, simplest and most practical machine on the market



It is the only machine that we could catalogue and guarantee to give perfect satisfaction

(Cut showing machine ready for service.)

It is the only machine with which the molding can be sawed from the back, or outside, as well as from the front or inside.

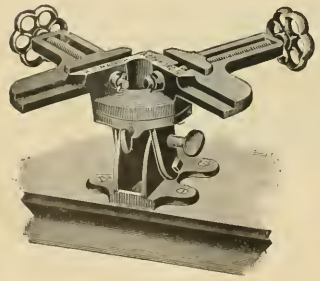
It is the only machine with which the sides and ends of a frame can be measured and cut from one way as well as the other, thus admitting of the machine being placed in any position at either side or end of the bench, where the best light can be obtained, and at the same time the most convenient room for full length of molding.

It is the only machine for making frames yet invented which can be adjusted from a horizontal position, for sawing the sides and ends of the frame, to a perpendicular or any other position convenient for boring and nailing the same, thus enabling the operator to complete the frame right before him, while standing upright, and working in a natural and easy manner.

The adjusting of the machine from one position to the other requires but a second of time. Machine cuts any molding less than 5 inches wide and will join any size frame larger than 7½ inches square.

Price of machine with 4½x26-in. saw.....$23.00
Price of saw only 5.00

The New Marsh Picture Frame Vise.



For Joining Extra Small Size Frames.

Nothing of the kind or half so complete ever before on the market.

It meets the demand for a frame clamp in every instance. No matter what kind of a mitering machine one has, or even if you are using the old-fashioned mitre box, the frame can be held in proper place for nailing perfectly and with the greatest ease possible. The vise has the same swivel and tilting attachments, in fact the same base as the Marsh Mitre Machine, and a frame can be swung or tipped in any position desired. It takes small or large frames alike—as small as 4x4 inches and from this to the largest size. It takes in any kind of molding 4 inches wide or under. It is light, well made and very strong.

Price.....$9.00

A·F·K
